

## MajestekSuede™ CLEANING INSTRUCTIONS

- MAJESTEK SUEDE™'s special technology allows for easy care and cleaning.
- Liquid spills tend to "bead up" on the surface; often all that is needed is quick action with a dry cloth to absorb the liquid.
- Remove dust deposits, prevent soil build-up, and keep the suede surface looking crisp and new with normal, regular vacuuming with a soft brush attachment.
- MajestekSuede can be cleaned and groomed with a Magik brush, Miracle brush, or similar lint removal brush.
- Use Scotch tape or a soft eraser to remove light stains and smudge marks.

### Water-soluble Stains

- Water-soluble stains from coffee, tea, juice, soft drinks, milk, beer, wine, and other drinks can be removed by dabbing the affected area with clean water, mild soapy water, or a 50/50 solution of water and white vinegar.
- Blotting is always preferable to rubbing for stain removal.
- Remove excess soap or vinegar solution by dabbing with clean water and blotting with a clean cloth.
- Allow the material to dry naturally or dry quickly with a hair dryer using the warm setting.
- "Rings" noticed after drying are usually the result of some residual soap or cleaning solution remaining on the fabric and can be removed by cleaning again with water.

### Non Water-soluble Stains

- Use a petroleum solvent such as naphtha (lighter fluid) or mineral spirits to remove non-water soluble stains such as grease, oil, and shoe polish. Page 47 of 86
- Dab the stained area with a clean cloth moistened with solvent and then blot with a clean, dry cloth. Repeat if necessary.
- Work from the edges of the stain toward the center to avoid enlarging it.
- Rubbing the area carefully with fine sandpaper usually can repair surface damage and minor cigarette burns.

### Cleaning Removable Covers

- Machine wash separately, using the cool or warm water setting on the delicate cycle.
- Use mild detergent without pouring it directly onto the material and no bleach. Spin and tumble dry on a low setting, or spin and hang to dry in a shady area. Do not twist or wring.
- MAJESTEK SUEDE™ covers also can be professionally dry cleaned using a clean perchloroethylene solvent and these settings: short cycle, tumble dry warm, steam followed by brushing to restore nap.

A wet extraction process, available through most professional cleaning services, is recommended to clean widespread dirt or for an overall cleaning of upholstered pieces.

Although MAJESTEK SUEDE® is spill resistant, supplementary treatments such as Scotchgard can be used for further protection. Test a sample to ensure that the texture or color of the material will not be affected.

## Restoring the Nap

After cleaning, it is important to restore the nap by lightly brushing with a soft bristle brush after the MAJESTEKSUEDE™ is completely dry. Regular routine vacuuming, immediate attention to accidental spills, and occasional brushing generally are all that is required to maintain the luxurious feel and appearance of MAJESTEKSUEDE™. ## SUEDE STAIN REMOVAL INSTRUCTIONS

1. Remove as much of the stain as possible before applying cleaners.

For dry stains, try brushing with a Magik or Miracle brush. Remove wet residue with a spoon, a butter knife or absorb with a soft cloth.

2. Select the appropriate cleaner according to the chart below.

3. Begin with the cleaner listed first, allowing the spot to dry.

4. If the stain remains, proceed to the next recommended cleaner.

## STAINS CLEANERS

Coffee, Tea, Milk 1 2 3

Juice, Soft Drinks 1 2 3

Wine, Beer 1 2 3

Mustard 2 3

Catsup, Chocolate 1 2

Cooking Oil, Mayonnaise 1 2 3

Crayon, Lipstick 4 5 2

Urine 1 2 3

Blood 1 2

Body Oils 1 2 5

Furniture Polish, Ink 2 5

Grease, Shoe Polish, Motor Oil 4 5 2

#### CLEANERS

1 Cold to lukewarm, never hot, water.

2 Mix one teaspoon of a mild soap (Woolite<sup>®</sup>, Joy<sup>®</sup>, Ivory Liquid<sup>®</sup>, or Tide<sup>®</sup> powder) to a pint of cold or warm water.

3 Pure white vinegar mixed 50/50 with water. Use vinegar full strength for stubborn stains.

4 A petroleum distillate such as mineral spirits or naphtha. Page 49 of 86

5 A dry cleaning solvent such as perchloroethylene, or Blue Coral<sup>®</sup> “Dri-Clean” Carpet and Upholstery Cleaner in a clear plastic bottle with a spray trigger.

NOTE: Exercise proper care when using solvents or solvent cleaners since some are flammable. Read and follow the manufacturer’s directions and use with adequate ventilation while wearing protective gloves.
